Assignment 3 Name Trevor Jones

1. Your target for this assignment is to create an external style sheet for your course homepage index.html.
2. Here are the specifications for this assignment.

✓ In the head section of your index.html document, create a link which links to this style sheet "css/home.css".

```
<link rel="stylesheet" href=" css/home.css ">
```

✓ Update your "index.html" document as follows

- Add more information in your introduction section.

✓ Create an external style sheet and name your file "home.css", put it into css folder.

✓ Put the following style rules in your style file "home.css"

✓ Layouts: Use appropriate style rules to create the same layout as the given videos.

✓ Font, Color

- Pick a web font Josefin Sans and apply the style on all paragraphs.
- Pick a font color #1f3f55, font weight 600 and apply the style on all lists.

✓ Text:

- Transform text in all h1, h2, h3, and h4 elements to uppercase. And set letter spacing 3px
- Apply text shadow to all h1, h2, h3, and h4 elements.

✓ Paragraph

- Set line height 1.7 Set text-align justify

✓ Link:

- Set the text-decoration be none;
- Apply a special style #68c00 text, no underline to all the links in the page. Whenever the user puts mouse on the links, the style will change to #0b3d91 text, blue underline, 1px letter spacing

✓ List:

- Display the navigation list in one line.
- Specify an image as the list-item marker in a list.

✓ Background image

- Place a background image Shutterstock to the body.
- Place a background color #ff8200 to the footer.

✓ Border:

- Add rounded corner borders to footer, div (round), and img elements.

✓ Selector Practice:

- Give a special style 1.4rem, bold, #ff8200 letters to the first letter of all paragraphs.
- Create box shadow for the first paragraph in portfolio section
- Style even rows of a table with a background color #ffe6cc

✓ Table:

- Apply appropriate style to course schedule table border 2px solid #bbb, padding 8px/10px, vertical-align middle, empty-cells Show

✓ Transform, transition and animation rule

- Add appropriate rules so that your page is similar to the videos.

✓ Submit your css file to http://jigsaw.w3.org/css-validator/ for validation. Please fix all the errors.

✓ To submit: Push all your files to the Github server. Please remember to **turn in this checklist** to the instructor on due dates.
