Assignment 4 (In Class) Name Trevor Jones

1. Your target for this assignment is to use bootstrap framework/Tailwind and or CSS grid system to style your ContactMe.html file.
2. Here are specifications for this assignment.

√ Add appropriate links to load bootstrap essential files

Update your "contact.html" document as follows

- √ Add a navigation section to the top of your ContactMe.html
- √ Add a form help text element below your input box

  <small class="form-text text-muted"> Your email .....</small>

Style your contact form **(All form elements need to be styled using the framework class)**

- √ Layouts: Use CSS grid/bootstrap to create the given layout in lecture.
  - Navigation Bar is fixed on top of the window.
  - Contact form and video frame are displayed side by side.
- √ Font, Color
  - Pick a bootstrap font weight class fw-normal and apply the style to lists.
  - Pick a bootstrap background color class bg-dark and apply it on navigation bar
- √ Floating Label:
  - Implement floating label to input box
- √ Input box, Selection box, Textarea:
  - Apply form-control class
- √ Range
  - Apply form-range class
- √ Radio /Checkbox:
  - Apply form-check/ form-check-input/form-check-label
- ○ Any other bootstrap class: bg-primary-subtle text-white text-wrap
- √ Border: Add border to video frame
- √ Margin/padding: Use bootstrap space utility class to set margin/padding appropriately

√ Submit your Test your HTML document on at least three different browsers and two different device(Mobile/computer). Please comment on whether there are any style differences and whether your design is a responsive web design.

Google Chrome is my primary browser. All good
Firefox: Video does not load. Says it is corrupted.
Internet Explorer: Same as Google Chrome all good.
Mobile: Not any major differences. It just shrunk down to fit the screen. It is responsive.

√ Before you submit your file, be sure to check this checklist.

√ To submit: Upload your files to GitHub
